GROWING WATER SMART TECHNICAL ASSISTANCE

COLORADO REQUEST FOR PROPOSALS

Fall 2022

Jeremy Stapleton, Sonoran Institute

The work performed, the method of collaboration, and the results [arising from our Growing Water Smart technical assistance] are exactly what the City needed and will be long-lasting. This was a legacy project and the City is grateful.”

Anne Best Johnson, | Community Development Director, City of Evans, Colorado

Application Window Now Open

The Sonoran Institute and the Babbitt Center for Land and Water Policy are requesting proposals from Colorado Growing Water Smart communities for technical assistance in implementing their action plans.

Eligibility—This request for proposals is open to all communities that have participated in a Growing Water Smart workshop, with preference given to June 2022 San Luis Valley workshop communities.

Requests for Assistance—Communities may apply for any project that advances the integration of land use planning and water resource management.

Projects must be completed by December 2023.

The requested technical assistance may be provided by third-party service providers such as consultants, non-profit organizations, or academic institutions. Please confirm the desired scope of work with your preferred service provider prior to submitting your proposal.

Examples of previous projects include:

Policy and Regulatory Updates

- Zoning or subdivision code
- Landscape ordinance

Demonstration Projects

- Projects that demonstrate proof of concept

Plans, Studies, and Metrics

- Design and implementation of visioning, scenario planning, or other planning processes
- Assessment and opportunities scan of local plans, policies, and programs
- Strengthening the water-related elements of general plans
- Drought management planning
- Green infrastructure planning
- Metrics and benchmarking

Education, Communication, and Collaboration

- Presentations by technical experts or peers
- Communications planning and messaging
- Facilitation of stakeholder groups

Contract Amount—Requests of up to \$10,000 per community will be considered. Joint or regional applications from two or more participating communities may request a larger amount, up to \$50,000, for a project. Matching funds are not required, though a technical assistance grant could be combined with other funds to support a larger project.

Permitted Expenses—Funds may be utilized for fees, travel, and other expenses incurred by the service provider/contractor. Local government or water provider staff salaries are ineligible for funding.

Jeremy Stapleton, Sonoran Institute

Diego Trejo, Lincoln Institute of Land Policy

Expectations of Recipients—Award recipients will sign a grant agreement and provide quarterly project status updates. Recipients may contract with their preferred service provider or request that Sonoran Institute contract directly with the provider on their behalf. Award recipients submit a project report and assist in sharing the project outcomes with peers.

Proposal Submission Format and Deadline—Please submit a proposal of approximately two pages and include the following information:

- **PROJECT DESCRIPTION:** a description of the project, how it will result in land use and water integration, and how the project relates to the action plan developed during the Growing Water Smart workshop.
- **SERVICE PROVIDER:** the desired technical assistance provider/consultant, and confirmation of their ability to take on the proposed project scope within the budget and timeline available.
- **PROJECT BUDGET:** a budget that also includes amounts and sources of matching funds, if applicable.
- **DELIVERABLES:** deliverable(s) and/or outcomes expected from the project.
- **PROJECT MANAGEMENT:** the names and contact information of 1-2 staff responsible for managing the project and overseeing the service provider. Specify whether the project is woman-led, as this may qualify for support from a Sonoran Institute partnership with Planet Women.

Applicants are encouraged to review their request with the **Sonoran Institute** prior to submission.

Please submit your technical assistance proposal to growingwatersmart@sonoraninstitute.org by **Friday, October 28th, 2022**.

Awards will be announced on or before **Dec 1st 2022**.

Support the Sonoran Institute

Your support preserves the environment for future generations and makes a lasting impact in communities across Western North America. Learn more about how you can help at SonoranInstitute.org/donate.

About the Babbitt Center

The Babbitt Center for Land and Water Policy, a center of the Lincoln Institute of Land Policy, seeks to advance the integration of land and water management to meet the current and future water needs of Colorado River Basin communities, economies, and the environment.

About the Sonoran Institute

The Sonoran Institute's mission is to connect people and communities with the natural resources that nourish and sustain them.
